

New year, new EQAcom: a new application for your data is available and replaces the previous version

Dear Member,

The new version of EQAcom is now available at: <https://cscq-dev.hcuge.ch/>

It not only allows you to enter your results, view your reports/certificates, and, when necessary, your invoice, but also to manage your password. The level of security for your data has been further enhanced.

To access the new version of EQAcom, please go to the link above, then click on the "Register" menu, where you will be guided through the registration process.

Enter your:

- Username (usual login, e.g. lab123)
- E-mail Address (your usual e-mail address, the one to which you receive notifications of report availability in EQAcom)
- Password (your new password)

With best regards.

The CSCQ Team
